Petition to the House of Commons in Parliament assembled, WHEREAS

Canadians are peace loving individuals and oppose the funding and involvement of the Ukraine war.

The Ukraine is not a member of Nato. Neither is the Ukraine a member of the Commonwealth. There is no major trade between Canada and the Ukraine other than the 2017 Free Trade Agreement in where asbestos is shipped to Canada.

Given that – the alternate domination of one faction over another sharpened by the spirit of revenge, natural to party dissension... leads at length to a more formal and permanent despotism. ...Excessive partiality for one foreign nation and excessive dislike of another, cause those whom they actuate to see danger only on one side and serve to veil and even second the arts of influence on the other.

- George Washington

Foreign entanglements are never an intelligent idea and are dangerous. This generally only escalates the situation as seen repeated over and over in history. Knowing that there are multiple disputes and wars going on globally, as well as incredible human rights abuses occurring in other countries at this moment – but Canada is not actively sending troops and money to these countries – such partisanship is repugnant.

The National Security and Intelligence Committee of Parliamentarians (NSICOP) briefing regarding the National Security and Intelligence Committee of Parliamentarians Annual Report 2019 was heavily redacted by Justin Trudeau because Justin Trudeau and Chrystia Freeland were both implicated. NSICOP found that Justin Trudeau and Chrystia Freeland are under the influence and control of foreign states through bailouts, bankrolling, providing troops and funding to the Ukraine (\$45 million to Ukraine in 2019).

Klaus Schwab, wrote a book entitled “Covid-19 The Great Reset”. In his book he describes a method of taking advantage of a crisis to exploit a political agenda termed the 4th industrial order. Multiple documents have been written outlining the private political agenda of the Davos Group and World Economic Forum. Their strategy is intentional foreign interference in the Canadian government and other governments globally, in that members infiltrate governments, then actively push these private agendas such as Agenda 2030. This a very severe abuse of public office not to represent Canadians and instead pursue a private foreign political agenda. Deputy PM Chrystia Freeland sits on the Board of Trustees of the World Economic Forum. There is an evident possibility that the Canadian government funding of the Ukraine war is part of these foreign agendas.

Canadian taxpayers do not support involvement in the Ukraine / Russia dispute. As the Canadian government becomes entangled in this foreign disagreement it is clear to see there is no benefit to Canadians as a whole. Gas prices have escalated and taxpayers are suffering financially. Ultimately the rising gas prices will place even more stress on supply chains, energy costs and food prices. This is an inevitable result as stated in the recent World Government Summit.

In conclusion, Canadians do not condone government involvement in this foreign war entanglement. It is not acceptable the government of Canada is funding the Ukraine or sending troops with taxpayers money, placing Canadians in further debt in support of this foreign agenda.

We, the undersigned citizens and residents of Canada call upon the House of Commons and the Senate to: desist from funding and sending troops to the Ukraine.
